NEW RANGE USE RULES

The east (wide) 50 yard handgun/rimfire rifle range is open for shotgun use and you will NOT be required to shoot from the firing line. Of course common sense is required here if more than one party wants to use the range.

The rifle ranges can be used for sighting in shotguns WITH SLUGS ONLY. As always all firing on the rifle ranges must be done from the firing line.

For shotgun use you MUST provide your own TARGETS AND TARGET FRAMES OR HOLDERS on the rifle and handgun ranges as shotguns do too much damage to the club's target frames.

REMEMBER, All shots MUST impact on the end berm, no exceptions, and all targets must be removed before you leave.

ALL shooting is to be done from the firing line. No walking down range to shoot. If you want a closer target get a frame out of the box and set it up closer or move to a different range. (Exception: some matches/ special events require shooting from different positions other than firing line)
